

Job Title: Senior Application Development Manager: Solutions Architect

Akasi Benin, a subsidiary of Akasi Group LLC (a US based Company) is an industry leader in our clients' Digital transformation business. We are Specialized in IT Consulting. We recognize that the backbone enabling our clients' highest aspirations for analytics and cognitive solutions is next-gen Cloud infrastructure. From IT consulting to implementation, and ongoing managed services we offer a full scope of application development services and solutions. We want talent who are ready to innovate cloud and Artificial Intelligence services and empower our clients to leap-frog in their technical capabilities.

Job Description

- Understand the client's business goals and overall IT strategy when developing digitalization solutions to deliver the best possible outcome for the client.
- Ability to build and manage relationships with key client stakeholders and c-level executives.
- Support clients facing teams to develop a comprehensive Point of View that will assist clients on their digital transformation journey.
- Assist with responding to and presenting client proposals.
- Develop and document technical designs for integration and implementation of new and existing cutting-edge applications and solutions with new technology such as Artificial Intelligence and cloud Computing.
- Architect and design server, network connectivity, and software configurations for cloud-based infrastructures and applications.
- Deliver solutions for integration between Cloud and on-premises data centers.
- Experience in managing and leading technical teams.

Qualifications

Minimum Requirements:

- Master's degree in computer science, Information Systems, Systems Analysis, or other related field
- Must have technical / professional qualifications
- 7 – 10+ years of experience with planning, architecting, and implementing software solutions
- Familiar with standard concepts, practices, and procedures of software technology, including Software as Service (SaaS),
- Experience working with agile methodologies

Behavioral Competencies

- Excellent communication skills, both written and verbal

- Effective interpersonal and relationship building skills
- Good mentorship and coaching ability with desire to develop self and others
- Strong client delivery focus
- Adaptable, managing change and ambiguity with ease
- Focus on quality and risk and sound problem-solving ability

Job Location: Cotonou - Benin

Pay rate is minimum 500 000

At Akasi Group, we want everyone to feel they can be themselves and to thrive at work—in every country, in everything we do, every day. We aim to create a workplace where everyone is treated fairly and with respect. We seek to create and leverage our diverse workforce to build an inclusive environment across the African continent.

Note: The list of tasks / duties and responsibilities contained in this document is not necessarily exhaustive. Akasi Kenya may ask the employee to carry out additional duties or responsibilities, which may fall reasonably within the ambit of the role profile, depending on operational requirements
